		Playshorts Login Free Content	The user can watch 3-4 episodes on Playbox TV without logging in. Only needing to login in after they've crossed that threshhold	All 4 Devices	Phase 1	
		Watch Trailer	Allow users to watch trailers before signing in. CTA: Watch Trailer/ Autoplay trailer	All 4 Devices	Phase 1	
	Authentication Gate	Login/Register Before Playback	Prompt login only before playback.	All 4 Devices	Phase 1	
		Login/Register Before saving to Wishlist		All 4 Devices	Phase 1	
		CTA: Subscribe		Mobile, Laptop, Tablet	Phase 1	QR Code on TV to make payment, scan to open on Mobile
		CTA: Login		All 4 Devices	Phase 1	
Login & Registration						
	Registration	Mobile Number Registration	Register using a mobile number.	Tablet, Mobile, Laptop	Phase 1	
		OTP Verification	Verify account using OTP.	Mobile, Laptop, Tablet	Phase 1	
		CTA: Create Account	Create a new Playbox account. - Enter Basic Details - Answer a few questions for user content preferences (e.g. Language, Genre, Favourite OTT Platforms) - Option to Skip	Mobile, Laptop, Tablet	Phase 1	
	Login	Mobile Number Login	Sign in using a mobile number.	All 4 Devices	Phase 1	
		OTP Verification	Verify login using OTP.	All 4 Devices	Phase 1	
		CTA: Login	Sign in to Playbox.			
		Resend OTP	Request a new OTP.	All 4 Devices	Phase 1	
	TV Login(sign in on TV using either Mobile Number + OTP or QR Code Authentication.)	Display QR Code	Display a QR code for TV login.	TV	Phase 1	Scan from google lens
		Display Activation Code	Display an activation code for TV login.	TV	Phase 1	
		Scan QR Code	Scan the QR code using the Playbox mobile app.	Mobile	Phase 1	
		TV Authentication - Enter Activation Code	Enter the activation code on the Playbox website or mobile app.	Mobile	Phase 1	
		Mobile Number + OTP based Login	Users would have an alternative login option using Mobile Number + OTP	TV	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Profile Selection	Choose Profile	Select a profile before entering Playbox. - One Regular and on Kids Profile would be created by default - The user can add an extra profile if required	All 4 Devices	Phase 1	
		Kids Profile	- One profile would be set to kids mode by default. - The user can set any profile to kids mode as per their requirement	All 4 Devices	Phase 1	
		Edit Profile	- Update Name - Update Avatar (Select from 6 preset Avatars, 3 Male, 3 Female)	All 4 Devices	Phase 1	
		Add Profile	Create a new user profile. - Profile Name (Default to Profile <No.> - Enable Kids mode Toggle	All 4 Devices	Phase 1	
	Legal & Consent	Terms & Conditions	Display terms and conditions.	All 4 Devices	Phase 1	
		Privacy Policy	Display privacy policy.	All 4 Devices	Phase 1	
		Accept Terms	Accept terms before proceeding.	All 4 Devices	Phase 1	
	Spash Screen	B2C	Just Playbox Logo	All 4 Devices	Phase 1	
		B2B	Playbox + Partner Logo	All 4 Devices	Phase 1	
Homepage						
	Navigation Menu	All	Inclusive of Search, Notification, Quick Access to Live News, Sports, Games, etc ***To be defined during the design stage, different for different device types***	All 4 Devices	Phase 1	
		Playbox + Partner Logo	For B2B we require Playbox Logo + space for the partner logo	All 4 Devices	Phase 1	
		Download Mobile App	On web we will nudge the user to download our mobile app	Laptop	Phase 1	
	Hero Banner	Featured Content	Highlight featured movies, shows and Live TV. - Feature Latest Content - Occassionally Feature Content user has saved in Wishlist - Can also Feature top content as per you user preferenece	All 4 Devices	Phase 1	
		Auto-Rotating Banner	Automatically rotate featured content. ***(Defined at the design stage, if we maintain autorotate or not)***	All 4 Devices	Phase 1	
		CTA: Watch Now	Start playback.	All 4 Devices	Phase 1	
		CTA: Add to Wishlist	Save in Wishlist	All 4 Devices	Phase 1	
		CTA: Watch Trailer/ Autoplay trailer	Play the trailer. For devices like Web & TV the trailer could autoplay	All 4 Devices	Phase 1	
	Ad Space		- Partner Specific Ads - Standard Ads	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Explore by OTT	List of OTTs	A list of all OTTs (Included and excluded from the plan) - OTTs - Voucher Subscriptions	All 4 Devices	Phase 1	
		Pop-up for activation	For vouchers we will show the user a pop-up to let them activate the subscription - Name of Subscription - Steps for Activation - CTA: Activate Now/ Copy Code	All 4 Devices	Phase 1	
	Content Categories/Sections *(Order and visibility of sections would be based on recommendation engine)*	Continue Watching	Resume previously watched content. - For content that redirects to other OTT platforms we can show it on continue watching for a few days after which it can be removed. - User will have the option to remove from continue watching	All 4 Devices	Phase 1	The list of sections doesn't define the order of the sections, these are just the options we are looking at
		Top Picks for you	Content that is specially curated for the user.	All 4 Devices	Phase 1	
		Top 10 in India	Showcase the top 10 trending titles across India.	All 4 Devices	Phase 1	
		Top 10 in <Language>	Showcase the top 10 titles in the selected language.	All 4 Devices	Phase 1	
		Trending Now	Display currently trending content.	All 4 Devices	Phase 1	
		New Releases	Showcase newly released movies and shows.	All 4 Devices	Phase 1	
		Upcoming Releases	Highlight upcoming movies and shows. - Content Card - CTA: Notify Me	All 4 Devices	Phase 1	
		Similar to <Movie / Series Name>	Recommend content based on viewing history.	All 4 Devices	Phase 1	
		Popular in <Language>	Curate a wider selection of popular content in the selected language beyond the Top 10 titles.	All 4 Devices	Phase 1	
		Collection <Genre>	Curate content based on a specific genre (Action, Comedy, Thriller, etc.).	All 4 Devices	Phase 1	
		Top Picks from <OTT Platform>	Showcase curated content from a specific OTT partner.	All 4 Devices	Phase 1	
		Live Streams	Showcase a few relevant streams	All 4 Devices		
		Live Sports	Highlight live sports based on the user's preferred sports and viewing interests.	All 4 Devices	Phase 1	
		Live News	Highlight live news channels for users who frequently watch news.	All 4 Devices	Phase 1	
		Watch Completion	Recommend similar content based on how much of it has the user watched: - Dropped off after 5% - Dropped off within 50% - Watched the entire content in bits - Watched the entire movie in one sitting / Binged the show	All 4 Devices	Phase 1	
		Re-watch Behaviour	Recommend based on re-watch patterns.	All 4 Devices	Phase 1	
		Viewing Recency	Prioritize recently watched content and recommend based on content watch in the recent 3-6 months time frame	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Recommendation Engine Parameters	Most Watched OTT	Which OTT Platform content does the user prefer the most	All 4 Devices	Phase 1	
		User Feedback	Recommend based on user feedback - Didn't Like - Liked This - Loved this	All 4 Devices	Phase 1	
		Content Metatags	- Language of the content - Genre of the content - Themes of the content - Cast in the content - Crew of the content (Director, writer) Create patterns to identify common meta tags between the content the user watches, saves to wishlist and searches for	All 4 Devices	Phase 1	
		Search History	Recommend based on recently searched content	All 4 Devices	Phase 1	
		Event Based recommendation	If we have a major event like ICC worldcup, Fifa Worldcup, Blockbuster Movie (Avengers Endgame, Dhurandhar, etc) that many people would be interested in we highlight that	All 4 Devices	Phase 1	
		Wishlist based	Showcase content the user has saved in their wishlist	All 4 Devices	Phase 1	
		User Profiling	- Create user types based on their choices e.g. All users who said they like Hindi movies and comedies like Akshay Kumar comedies so we suggest Akshay Kumar Comedies to the new user who selected the same.	All 4 Devices	Phase 2	
		Time-based Recommendations	Identify Content preference patterns of the user at various times of the day	All 4 Devices	Phase 2	
		Day-based Recommendations	Identify Content preference patterns of the user between weekdays and weekends. What kind of content do they like to watch over a weekend (A full movie), Weekdays (News or rewatch old shows)	All 4 Devices	Phase 2	
		Device-based Recommendations	Identify what kind of content does the user like to watch on different devies - E.g. Movies on TV - E.g. Cricket on Mobile Phone	All 4 Devices	Phase 2	
		Location-based Recommendations	Based on the users IP address showcase some relevant recommendations for that region. Check if we can get city location data using IP address and recommend content accordingly. (e.g. More content from Chhaupal for people from Punjab)	All 4 Devices	Phase 1	
		Recommendation Priority	Actual Behaviour (Rewatch, content completion, bingeing) > Related Meta Data (Genre, Cast, Content Synopsis & themes) > Feedback & Preferences Shared (Onboarding preferences, user feedback on content) > Live Context (Time, Day & Device)	All 4 Devices	Phase 1	
		Free Content Collection	Watch free content without an active subscription where applicable.	All 4 Devices	Phase 3	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Free Content	First Episode Free	Allow non-subscribers to watch the first episode of selected series.	All 4 Devices	Phase 3	
		Virtical short videos of content	Curate a set of vertical 1-2 minute cuts of movies and shows from our OTT providers. To help with content exploration, user engagement & conversion	All 4 Devices	Phase 3	
	Content Cards	Content Information	Display poster, title and OTT platform.	All 4 Devices	Phase 1	
		Rotating Poster	Have multiple posters of the same content, these can be cycled on the content card to make the collection constantly feel fresh and catch the users attention.	All 4 Devices	Distant Future	
		Content Badges	Display badges such as - New - Recently Added - Trending - Top 10 - Coming Soon - Live - New Episode - Award winnig - Leaving soon (If we get access to that data)	All 4 Devices	Phase 1	
		Progress Indicator (For partially watched content)	Display viewing progress.	All 4 Devices	Phase 1	
		Language of Content	For Live TV content we need to inform the user what language is the Live TV channel in	All 4 Devices	Phase 1	
		Locked Content Indicator	A tag to indicate which content is not included in the users current subscription For subscriptions below the Maharaja Pack	All 4 Devices	Phase 1	
Search						
	Search Input	Search Bar	Search across all integrated OTT platforms.	All 4 Devices	Phase 1	
		Voice Search	Search using voice commands.	All 4 Devices	Phase 1	
		Recent Searches	Display recently searched queries.	All 4 Devices	Phase 1	
		Type on Phone	Use a connected mobile phone as a text input device while searching on TV. The phone connected to their local network with the same Playbox TV profile will open a keyboard that the user can type on	TV	Phase 2	Need to check feasibility
		ABCD Keyboard for TV	For TVs instead of having an QWERT Keyboard we will maintain and ABCD Keyboard for ease of use	TV	Phase 1	
		Trending Searches	Display popular search queries.	All 4 Devices	Phase 1	
		Search Suggestions	Show suggestions while typing. ***Mobile, tablet and laptop won't have search suggestions since real time search results are also on.***	TV	Phase 1	
		Real-time Search	Refresh results as users type.	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Smart Search	Spell Correction	System automatically consideres the correct spelling in the backend if the word entered doesn't have an exact match. (E.g. Baubali = Baahubali)	All 4 Devices	Phase 1	
		Autocomplete Word	Based on the first 2-3 alphabets entered the system will suggest a word that the user can autocomplete. e.g. User enters "Ba", the system suggests "Batman"	TV, Mobile, Laptop	Phase 1	
		Natural Language Search	Allow users to search using natural, conversational language instead of exact titles. E.g. "funny 90s movies," "shows like Friends"	All 4 Devices	Phase 2	
	Search Categories	Tabs for Categories	***Decisions of including tabs will be taken at the design stage dependant on feasibility of improving search engine.***	All 4 Devices	Phase 1	
		Movies	Search movies.	All 4 Devices	Phase 1	
		TV Shows	Search TV shows.	All 4 Devices	Phase 1	
		Live TV	Search live TV channels.	All 4 Devices	Phase 1	
		PlayShots	Search PlayShots.	Mobile, Tablet	Phase 1	
		Games	Search games.	Mobile, Tablet	Phase 1	
	Search Engine Factors	Cast	Search by actors.	All 4 Devices	Phase 1	
		Director	Search by director.	All 4 Devices	Phase 1	
		Writer	Search by writer.	All 4 Devices	Phase 1	
		Character	Search by character name. ("Shrikant" = The Family Man)	All 4 Devices	Phase 2	
		Genre	Search content by genre. (e.g. Suspense Thriller, Comedy, etc)	All 4 Devices	Phase 1	
		Content Type	The user could mention that they want to view "Movies", "Shows", "News" etc. So we need to show relevant content	All 4 Devices	Phase 1	
		Industry	Search by Industry (Bollywood, Hollywood, Tollywood)	All 4 Devices	Phase 1	
		Studio Based	Search by Studio (Excel Entertainment = Gully Boy, 120 Bahadur, etc)	All 4 Devices	Phase 1	
		Language	Search content by language. (Hindi Movies, Tamil Shows, etc)	All 4 Devices	Phase 1	
		Year	Search content by release year. (e.g. Movies from 2000s)	All 4 Devices	Phase 1	
		Synonym Search	Match related words and phrases. ("cop show" = "police procedural," "scary movie" = "horror")	All 4 Devices	Phase 2	
		Aggrigators	Search by OTT platform. (Shows on Sony Liv)	All 4 Devices	Phase 1	
		Studio / Franchise	Search by studio or franchise. (e.g. YRF Spy Universe, MCU)	All 4 Devices	Phase 2	
	Search Results Include (The content that needs	Universal Results	Display results across all content types ***Decision to include tabs or show all content in one place to be taken during design phase***	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	(The content that needs to be displayed based on user search term)	Exact Match	Give the first preference to the exact match for the users search query	All 4 Devices	Phase 1	
		Similar Content	Recommend similar titles when no exact match is found or Similar/related to the exact matches found right below the exact matches	All 4 Devices	Phase 1	
	Search Results Card	Content Information	- Display poster - Title - OTT platform.	All 4 Devices	Phase 1	
		Content Badges	Display badges such as - New - Recently Added - Trending - Top 10 - Coming Soon - Live - New Episode - Award winnig - Leaving soon (If we get access to that data)	All 4 Devices	Phase 1	
		Locked Content Indicator	A tag to indicate which content is not included in the users current subscription For subscriptions below the Maharaja Pack	All 4 Devices	Phase 1	
	Empty State (No Relevant results found)	Alternative Recommendations	E.g. "We don't have Don 2, but would you like to watch these?" Create a data base of all movies and their meta tags even if they are not on the platform. Based on users search if that title is not in our library we show them similar recommendations based on meta tag data	All 4 Devices	Distant Future	Need to get back on feasibility
		No Results Message	Inform users when no exact match is found and default to showcasing some recommendations based on our recommendation engine.	All 4 Devices	Phase 1	
	Searching from an OTT aggregator		If the user searches from an OTT aggregator they will only see content from that OTT aggregator. A filter would be applied to the search page. This filter can be removed by the user.	All 4 Devices	Phase 1	
Content Detail Page (Movies)						
	Hero Section	Hero Banner: Movie Poster	Display the movie artwork.	All 4 Devices	Phase 1	
		Movie Title	Display the movie title.	All 4 Devices	Phase 1	
		Content Badges	Display badges such as New, Trending, 4K and Dolby.	All 4 Devices	Phase 1	
		OTT Platform Indicator	Display the streaming partner.	All 4 Devices	Phase 1	
		CTA: Watch Now	Start movie playback.	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Playback Actions	CTA: Watch Trailer/ Autoplay trailer	Play the movie trailer. Trailer Autoplay for Mobile, Tablet & TV will be on Mute Trailer Autoplay for TV will be on full volume ***Watch Trailers currently doesn't work for all titles, some titles have YouTube Playback Issues***	All 4 Devices	Phase 1	
		CTA: Resume Watching	Resume from the last watched position. ***This currently doesn't always work well, the movie occassionally restarts instead of playing from where it was last left***	All 4 Devices	Phase 1	
		CTA: Restart	Restart the movie from the beginning.	All 4 Devices	Phase 1	
		Select Platform	If the same piece of content is available on multiple platforms we need to also allow the user to choose which platform they wish to watch it on. **Note:** Need to define how this works if all listed platforms plays on app only	All 4 Devices	Phase 1	
	Content Information.	Synopsis	Display the movie synopsis.	All 4 Devices	Phase 1	Need to check how much information can we provide, since we have a dependancy on OTT providers for these metadata points
		Cast	Display actors.	All 4 Devices	Phase 1	
		Crew	Display directors, writers and producers.	All 4 Devices	Phase 1	
		Genre	Display movie genres.	All 4 Devices	Phase 1	
		Runtime	Display movie duration.	All 4 Devices	Phase 1	
		Release Year	Display release year.	All 4 Devices	Phase 1	
		Languages	Display available audio languages.	All 4 Devices	Phase 1	
		Subtitles	Display available subtitle languages.	All 4 Devices	Phase 1	
		Content Rating	Display certification and maturity rating.	All 4 Devices	Phase 1	
		IMDb Rating	Display movie rating.	All 4 Devices	Phase 1	
		Available Quality	Display available streaming quality (HD, 4K, HDR).	All 4 Devices	Phase 1	
		Awards	Display awards and recognitions where available.	All 4 Devices	Phase 1	
	Excluded from Active Subscription	Locked Content Indicator	Identify content not included in the current plan.	All 4 Devices	Phase 1	
		Additional Price for upgrading	The user can do a partial payment for a mid cycle upgrade and then from the next cycle they can do complete payment	All 4 Devices	Phase 1	Need to check if mid cycle upgrades are possible. This happens on my Playstation subscription, its a good feature to push for upgrades. A Similar Element can be used to push the user to purchase a subscription
		Upgrade Nudge	Recommend upgrading to unlock the movie.	All 4 Devices	Phase 1	
		CTA: Upgrade	Navigate to subscription plans.	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Redirect to different platform	Pop-up: Redirect Information	- Heading: You will be redirected to <OTT Name> to watch <Content Name> - Sub Heading: Register on <OTT Name> with your Playbox Mobile Number to access the content - Checkbox: Don't show again - CTA: Proceed to <OTT Name>	All 4 Devices	Phase 1	
		Redirect Animation	A short 2s loader before redirecting the user to OTT page - "Redirecting you to <OTT Name> (**Note:** This needs to be a minimal animation to avoid heavily load time for TV)	All 4 Devices	Phase 1	
		Card on Content Details Page	This content will play on <OTT Name>, you would need to register with your PlayBox TV Phone number to access the content.	All 4 Devices	Phase 1	
	User Actions	Add to Wishlist	Save the movie for later.	All 4 Devices	Phase 1	
		Download	Download the movie for offline viewing.	TV, Tablet	Phase 2	
		Content feedback	- Don't Like - Like - Love	All 4 Devices	Phase 1	
		Cast to TV/ Play on TV	The user can use their mobile device to start playing content on their TV that is connected to the same network. The user doesn't need to be in the same wifi network to Cast to TV/ Play on TV. They can click on this button and select which TV to play on ***This exsit in the current video playback screen but doesn't seem to work***	Mobile	Phase 1	Need to check feasibility, this is currently visible in the video playback screen, but it doesn't work
		Share Movie	Share the movie using the device's native sharing options.	Mobile, Tablet, Laptop	Phase 1	
	Recommendation (One section with content curated based on these factors)	Related Franchise Content	Recommend previous movies or shows from the same franchise ***If there is a direct franchise match this needs to be the first priority***	All 4 Devices	Phase 1	
		More from <Actor>	Recommend movies featuring the selected actor.	All 4 Devices	Phase 1	
		More from <Genre>	Recommend movies from this genre	All 4 Devices	Phase 1	
		More from <Director>	Recommend movies from the selected director.	All 4 Devices	Phase 1	
		More from <OTT Platform>	Recommend content from the same OTT partner.	All 4 Devices	Phase 1	
		Similar Movies	Recommend related movies.	All 4 Devices	Phase 1	
Content Detail Page (Shows/Series)						
	Hero Section	Hero Banner: Show Poster	Display the show artwork.	All 4 Devices	Phase 1	
		Show Title	Display the show title.	All 4 Devices	Phase 1

		Log out devices	Log out any device logged into the account	Mobile, Laptop, Tablet	Phase 2	
		Current Plan		All 4 Devices	Phase 1	
		Plan Inclusions		All 4 Devices	Phase 1	
		Auto-renewal details	Inform the user about OTTs that auto renew Monthly or quaterly plans in order to provide a half yearly or yearly plan. e.g. If the user purchased a 3 month plan that includes Zee5. But Zee5 only offers 1 month and 6 months plans. The user will get three 1 monht plans, which will auto renew three times. There is no user action required but since on the Zee5 app it appears as a 1 month plan people would get confused. So we need to informt them about the same on our app	All 4 Devices	Phase 1	
		How to activate Video Library	For each OTT that the user needs to activate or be redirected to a different OTT platform we will give a how to activate youtube video	All 4 Devices	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Subscription & Billing	Post Purchase Activation Checklist	After the user has subscribed give them a quick checklist on what needs to be activated and how to activate it	All 4 Devices	Phase 1	
		Partial Plans	For OTTs like Hotstar where a half yearly, half yearly activation is done for a 1 year subscription we would communicate to the user that their subscription will auto renew at the end of 6 months and that their subscription is for 1 year not 6 months	All 4 Devices	Phase 1	
		Upgrade/Downgrade Plan	Switch between plans - Upgrade can be done mid cycle - Downgrade will happen at the start of the next cycle	Mobile, Laptop, Tablet	Phase 1	
		Transaction History	Show the list of payments made to Playbox	Mobile, Laptop, Tablet	Phase 1	
		Cancel Subscription	Allow users to cancel their ongoing subscription	Mobile, Laptop, Tablet	Phase 1	
		Cancellation Feedback	- Why do they not want to continue?	Mobile, Laptop, Tablet	Phase 1	
		B2B - No Plan Details	Contact your ISP to learn more B2B will not have options to view plans and pricing, etc	All 4 Devices	Phase 1	
	My Vouchers	List of Vouchers	- Ability to Activate Voucher (Jio Saavan) or - Get Redemption.Coupon Code for Voucher	Mobile, Laptop, Tablet	Phase 1	
		Voucher Activation History	Show when was which voucher activated	Mobile, Laptop, Tablet	Phase 1	
	Wallet		A wallet to store reward coins recieved on payment of subscription The exact implementation and use case needs to be defined which will be done in Phase 2	Mobile, Tablet, Laptop	Phase 2	
	Refer & Earn		The user can refer Playbox to their friends and family to earn some rewards	Mobile, Tablet, Laptop	Phase 2	
	Support	Call Support	Contact Number	Mobile, Tablet, Laptop	Phase 1	
		Email Support	Email ID	Mobile, Laptop, Tablet	Phase 1	
		AI Bot Chat		Mobile, Laptop, Tablet	Phase 1	
		WhatsApp Support	WhatsApp Contact Number	Mobile, Laptop, Tablet	Phase 1	
		OTT Activation Guide		Mobile, Laptop, Tablet	Phase 1	
		FAQs		Mobile, Laptop, Tablet	Phase 1	
	Legal & Policies	Terms & Conditions		All 4 Devices	Phase 1	
		Privacy Policy		All 4 Devices	Phase 1	
	Share App		Allow the user to share app link to their friends and family - Copy Link Option for Laptop & Tablet	Mobile, Laptop, Tablet	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Rate App		Allow the user to rate the app on Playstore/Appstore	Mobile, Tablet	Phase 1	
	Sign-Out		Allow user to log out from their account	All 4 Devices	Phase 1	
	Delete Account		Allow user to delete their account - Enter OTP to confirm deleting account	Mobile, Laptop, Tablet	Phase 1	
Profile Settings						
	Profile Management	List of Profiles (Upto 5)	Allow to view and switch between profiles	All 4 Devices	Phase 1	
		Edit Profile	- Name of Profile - Avatar - Enable Kids mode	All 4 Devices	Phase 1	
		Create a New Profile	- Add Name (Default Name <Profile No.> - Select Avatar (From 6 Avatarts = 3 Male, 3 Female) - Enable Kids Mode - For a new profile being created the user needs to select preferences questions as well (Language & Content Type)	All 4 Devices	Phase 1	
		A-Rated Content Lock	The profile will be a normal profile but all A rated content would be placed behind a pin lock that the user needs to enter in order to access that content in this profile Or we can allow the user to define maturity rating that filters the content (U, UA, PG13, 16+, 18+) - Similar to Netflix Setting a A Rated Content lock would require the owner of the account to add an OTP they recieved on their phone number	All 4 Devices	Phase 1	
		Profile Lock	- Create a Pin lock for the profile (4 Digit) - Disable Pin Lock Each time the user tries to access the locked profile they would need to enter the 4 digit pin	All 4 Devices	Phase 2	
	Content Preferences	Preferred Languages	Set languages this profile prefers to watch in	Mobile, Laptop, Tablet	Phase 1	
		Genres & Interest	Set genres/interests to shape this profile's recommendations	Mobile, Laptop, Tablet	Phase 1	
	UI Display Language	List of Languages	Allow for multi lingual UI This only impacts the UI language for that profile accross all devices	All 4 Devices	Phase 3	
	Subtitle Preferences	Preferred Language	- Select Between multiple Languages - Defaulf selected would be english	All 4 Devices	Phase 2	This is a good to have not a must have feature
		Subtitle Styling	- Size of Text - With Background or with shadow	All 4 Devices	Phase 2	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
	Audio Preferences	Preferred Language	- Select prefered language for content - Default to Original	All 4 Devices	Phase 1	
	Download Preferences	Download Quality	- Full HD (1080p) - HD (720p) - SD (480P) - Low Quality (240p)	Mobile, Laptop	Phase 2	
	My Wishlist		Same as Wishlist feature above	All 4 Devices	Phase 1	
	Activate TV		- Scan QR Code - Enter Authentication Code	All 4 Devices	Phase 1	How many TVs can I be logged into?
Subscriptions						
	Current Subscription	Active Plan	Display the user's active Playbox plan.	All 4 Devices	Phase 1	
		Plan Validity	Display subscription validity and renewal date.	All 4 Devices	Phase 1	
		Included OTT Platforms	Display OTT platforms included in the current plan.	All 4 Devices	Phase 1	
		Included Vouchers	Display all the vouchers that are available with the subscription - Allow the user to redeem or activate	All 4 Devices	Phase 1	
	Subscription Plans	Highlighted OTTs	Instead of showing all OTTs equally we highlight a few top OTTs and also keep changing this region to region **Mumbai City:** Hotstar + Sony Liv + Zee5 + Lionsgate Play **Punjab:** Hotstar + Sony Liv + Zee5 + Chaupal **Chennai:** Hotstar + Sony Liv + Zee5 + Sunn Next The highligted subscription can also later on change based on preffered languages. If someone in Mumbai stated that they like Punjabi content they can be shown the highlighted set of Punjab	Mobile, Laptop, Tablet	Phase 1	Need to confirm Feasibility
		View Plans	Display all available subscription plans.	Mobile, Laptop, Tablet	Phase 1	
		Plan Comparison	Compare available plans and benefits.	Mobile, Laptop, Tablet	Phase 1	
		Recommended Plan	Recommend the most suitable plan based on selected preferences (Type of content preferred and languages - e.g. Sports, Marathi)	Mobile, Laptop, Tablet	Phase 2	
		Detailed Breakdown of Plan Inclusions	Need this information for every OTT - Highest Video Quality - No. of Devices supported at a time - Types of devices supported (TV, Mobile, Web) - Download Supported & for how many devices - Plays on Playbox or OTT app ***(Optional)*** - Content Included (All content on app or Live Sports, Movies, etc) ; Can also mention whats excluded - Ads on content (Yes, No Ads)	Mobile, Laptop, Tablet	Phase 1	

Pages/ Modules	Features	Sub Feature	Description	Device	Design Development Phase	Comments
		Display additional Vouchers recieved by the user	This is for non OTT or content vouchers - Ola Cabs voucher - Zomato Voucher - etc	Mobile, Laptop, Tablet	Phase 2	Need to check if we need to consider these kind of vouchers
		CTA: Upgrade	Upgrade the current subscription plan.	Mobile, Laptop, Tablet	Phase 1	
		CTA: Subscribe	Subscribe to a new plan.	Mobile, Laptop, Tablet	Phase 1	
	Custom Plans (These are just suggestions)	Flexi Plan	Allow users to build a custom OTT bundle.	Mobile, Laptop, Tablet	Phase 1	This is done on Tata Play Binge, need to check feasibility for us
